

'Just getting the checkup' is dangerous!!

Don't avert your eyes from the checkup results!!!

Are you thinking of "plausible" reasons and putting off your worries until later?

I've been healthy so far, and I am really busy with work, so it'll be fine if I don't go to the hospital ...

Do you receive (or have people receive) the medical checkup and then think you're finished? According to the Ministry of Health, Labour and Welfare guidelines*, it is considered appropriate for business operators to recommend that people receive repeat examinations, etc., based on the results of the first medical checkup.

In order to protect their important human resources, business operators should also recommend the examinations.

*Guidelines on the measures to be taken by business operators based on medical checkup results (Revised April 14, 2017, Public notice of medical checkup result measure guidelines No. 9)

Please use this format when the business operator recommends medical examinations.

(Format for document recommending medical examination)
